POLITICAL.

LOUISIANA LEGISLATURE.
NEW ORLEANS, Dec. 9.—The legislature assembled at Lyceum hall, where they were in caucus this morning. Each member as he passed in, was served by United States deputy marshals with a copy of Judge Durrell's restraining order. Mechanics Institute is still in charge of the military. Sentinels guard the door; but state officials and members of the legislature, recognized by the custom-house board, and reporters and political friends are admitted. Congressman Darrell, and ex-mayor Flanders were on the floor of the house. Both sides claim a quorum in the house. The senate is doubtful. Vigors, the old clerk of the house, whose duty it is to call the roll, was arrested yesterday by deputy marshals, and has since been held a prisoner at Mechanics Institute. This move was made to prevent him from the calling of the Conservative house.

WRIT OF PROHIBITION ASKED FOR.
WASHINGTON, Dec. 9.—Attorney General Ogden of Louisiana, in the supreme court this morning asked for a writ of prohibition against Darrell restraining him from proceeding further in the case of Kelllogg vs. Warmouth in the circuit court of Louisiana. Ogden asked immediate consideration of the matter, remarking that the very life of the state was involved in the controversy. Phillips, who is associated with Ogden, said it was a proper case for a writ. Judge Miller asked how it could be a proper case, when the constitution provided that a case wherein a citizen was a party, should not be a case for its issuance. The court took the matter under advisement.

MECHANICS INSTITUTE LEGISLATURE.
Both houses organized and joint committees were appointed to inform the governor. C. W. Lowell was elected speaker of the house by acclamation. The holding over senators protest against the manner in which the senate has been organized, which is being discussed.

THE PRESIDENT HAS HIS EYE ON CUBA.
ST. LOUIS, Dec. 9.—A Washington special this evening dispatch says the president is taking steps to become thoroughly informed as to the true condition of affairs in Cuba, preparatory to it is reported, to recommending congress to legislate and bring to an end the long continued struggle between the Spaniards and Cubans. Secretary Delano will sail for Havana next Thursday, to be absent from one to two months, and will ascertain the exact status of affairs on the island and report to the president upon his return. Secretary Delano's health is very poor, but he expects it will be greatly benefited by the trip. The matter has been kept a secret, and is known to only a few persons here.

NEW ORLEANS.
NEW ORLEANS, Dec. 9.—In the federal court the Warmoth contempt case was postponed till to-morrow on account of the illness of Judge Durrell. Much interest is manifested regarding political moves. Quite a crowd gathered at the Mechanics Institute where the Kelllogg legislature met, and at the city hall where the fusion members were in caucus, as well as at the federal court room, where Warmoth's contempt case was set for hearing. Judge Elmore of the eighth district court, and Manning, clerk, were arranged before the supreme court for contempt growing out of the Bovee case. Judge Elmore was fined \$50 and ordered imprisoned for ten days, Manning was fined \$50 and imprisoned for five days. They were both pardoned by Gov. Warmoth.

In the Kelllogg legislature after organization, sixty-four members present, the following were unanimously adopted:

WHEREAS The general assembly has now convened in compliance with a call of the governor, and certain evil disposed persons are reported to be forming combinations to disturb the public peace and defy lawful authorities and the state is threatened with violence; therefore

Resolved, By the house of representatives and general assembly of Louisiana, the senate concurring, that the president of the United States be requested to afford the protection guaranteed each state by the constitution of the United States and the president officers of the general assembly transmit this resolution by telegraph and otherwise to the president of the United States.

Among the principal subjects which will come before the convention, are railroads, interior lines of water communication, public lands, emigration, domestic and foreign commerce, finance and taxation, American ship-building and navigation interests. Owen, from Duluth, are reported lost with all on board. Schooner C. C. Griswold, from Marquette, is reported lost with all on board. The Canadian steamer Cumberland is frozen in at Bear Lake with fifty passengers on board.

STEAMER THOMAS ALLEN SUNK.
MEMPHIS, Nov. 9.—The steamer Thomas Allen sunk five miles above DeWitt's bluff, last night. Second cook and pastry cook, names unknown, were drowned. The boat was valued at \$10,000, and not insured. Her cargo consisting of plantation supplies and stores for Cairo and Fulton railroad, valued at \$5,000, which was insured.

ST. LOUIS, Dec. 9.—The horse disease is still spreading and assuming a more malignant type, many cases having become quite serious in character. Scarcely a horse is to be seen in the street, and what little hauling there is being done is done by mules and oxen. Business in some departments of trade is almost suspended, and sales on 'Change are scarcely worthy of note.

CONGRESSIONAL.

SENATE.
The credentials of Mr. Morton, re-elected, were presented.

Mr. Morton, from the military committee, reported a bill refunding the states interest on monies borrowed to equip and pay and supply troops for the United States in war. He said he would ask action thereon.

Mr. Pomeroy introduced a bill for the relief of settlers on Cherokee lands in Kansas, which was referred.

Mr. Cole introduced a bill relating to the payment of duties which provides that June 30, 1873, it shall be lawful to receive 20 per cent. of the amount of customs and duties in United States notes and 10 per cent. additional proportion each year thereafter till 1877, when the duties may be paid, either in gold or United States notes.

Mr. Carpenter introduced a bill providing that hereafter the annual session of the supreme court of the United States shall commence on the first Monday in October each year, in accordance with a resolution adopted last week.

The senate at the end of the morning hour proceeded to consider the bills on the calendar.

The report of the committee of conference on a bill regulating the construction of a bridge across the Ohio river was agreed to. The house having agreed to it at the last session, the bill is passed.

Mr. Sumner's joint resolution proposing an amendment to the constitution, confining the president to one term was referred to the judiciary committee.

Mr. Pomeroy moved to postpone indefinitely the bill to extend the same for the construction of the Kansas, Topeka and Santa Fe railroad, saying the road had already progressed so far that it would be finished within the prescribed time. At 2:30 the senate went into executive session, and soon after adjourned.

HOUSE.
Several bills were introduced and referred including one by Hibbard of New Hampshire, including an amendment to the constitution authorizing congress to fix a time for state elections. Mr. Banks offered a resolution fixing the salary of the president at \$50,000 per annum, commencing March, 1873, that the term of office of president and vice-president be six years, the president to be ineligible for re-election, and that the president and the vice-president be elected by the people at the same time that congressmen are elected; that portion of the resolutions as to the term of the president being in the form of an amendment to the constitution.
